

Three production-vs-degraded comparisons

Same provenance palette as the main splash. Marker shape encodes model; provider color is preserved; chance line at 20 % shown where applicable.

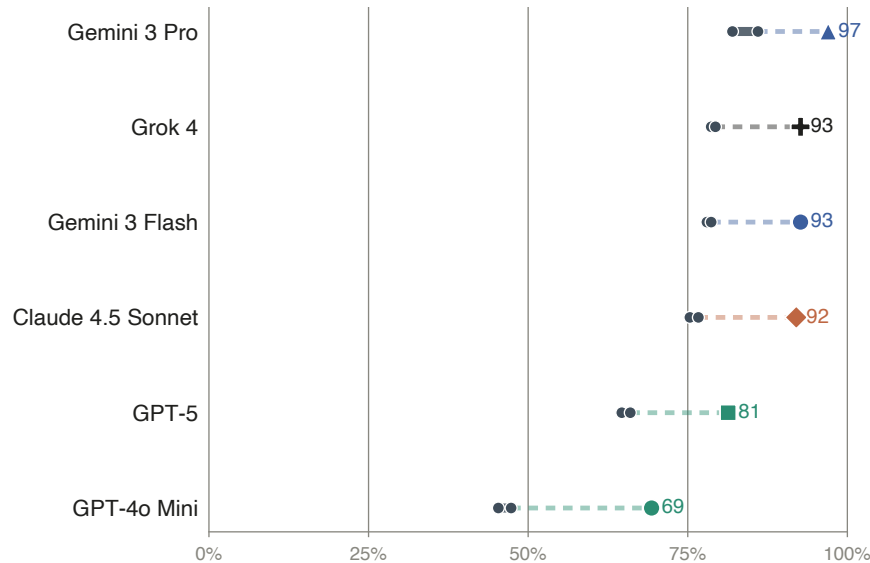

a Web-search ablation

US & Canada · 14-day average · filled = search · hollow = no-search

b MC vs free-response

April 6 · strict paired set · slate bracket = 3-judge FR range · marker = MC

c Standard vs adversarial

US & Canada · Feb 19-22 · large = adversarial · small = standard
